- 22 Dispensary Listings
- 27 Books

Cannabis Health News Magazine (CHNM) is intended for educational purposes only. The use of marijuana is legal for those whose doctors have recommended it under Colorado law, but it remains illegal under the laws of most other states and under Federal law. CHNM does not encourage illegal activities and is provided solely to inform adults about medicinal cannabis." -- there being only a handful of patients who are minors, it is simpler to exclude them.

WARNING: This information is for educational purposes ONLY and is NOT intended for illegal activities. Over 18 only, unless you currently hold a Medical Marijuana Registry card from the Colorado State Department of Health.
