### About Cannapages from the Editors

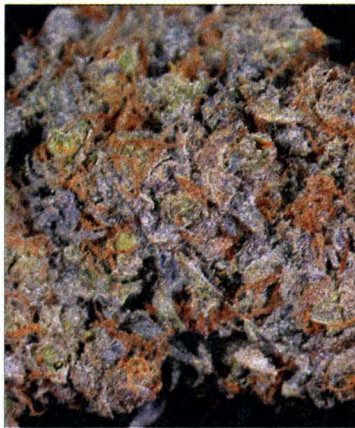

Cannapages was founded in 2009 by medical marijuana patients in Denver, Colorado. Since launching the branded directory has been featured in three magazines, and the team is now known for industry media development, patient parties and giveaways.

Cannapages.com was envisioned as a place where dispensaries could share deals with patients, where feed back was honest and never "computer-generated," where customers could depend on information from a local source. The editors of Cannapages are patients, volunteers, growers, and some, serving in current or past management at local establishments. This directory is to be used as a resource during this new era of regulated cannabis. Welcome to the Future.
